

CAMX CCTV

CREATING PRIVACY COVERS ON YOUR DVR

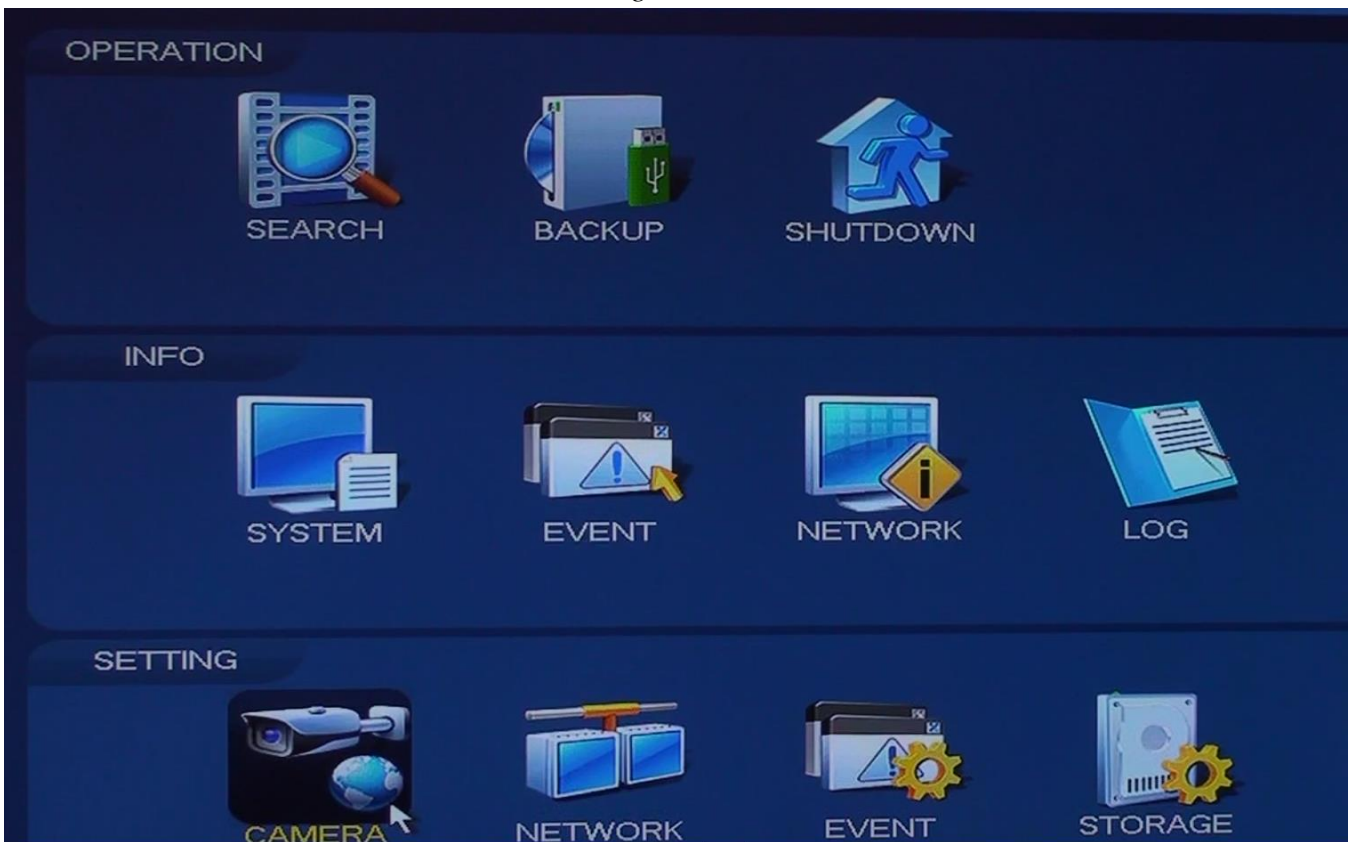

877-840-5142

www.camxcctv.com

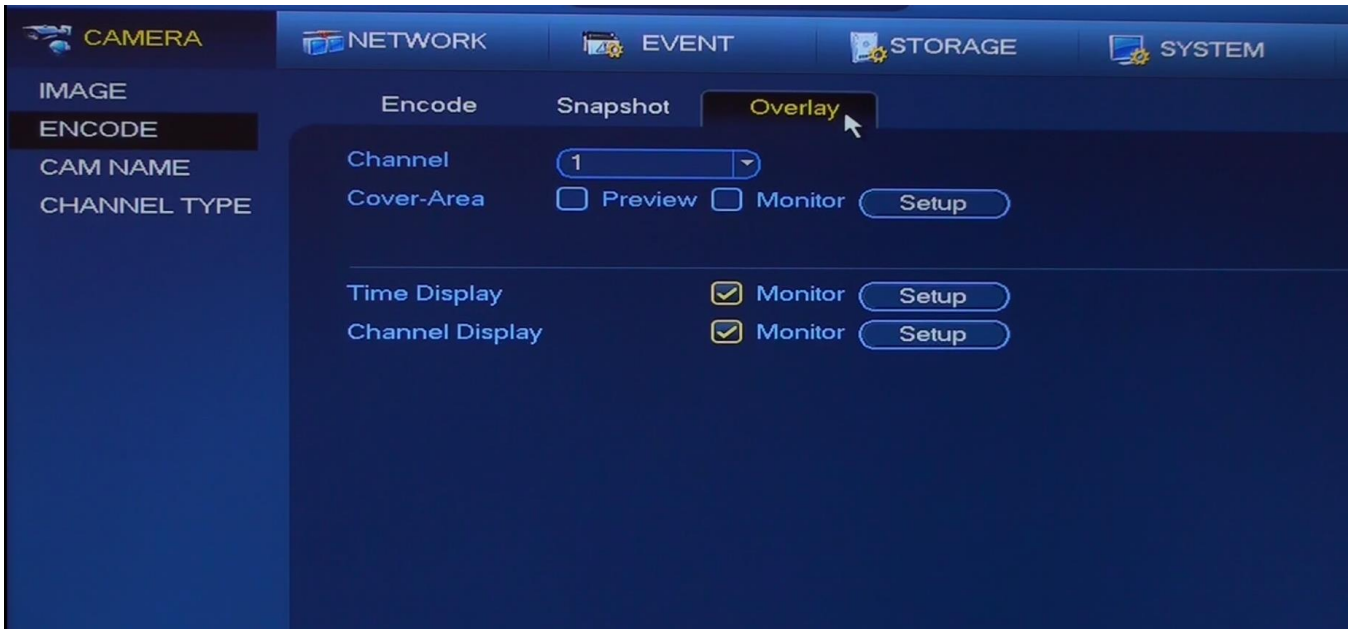

- 1) Right click on the screen and select *Main Menu* from the drop down.

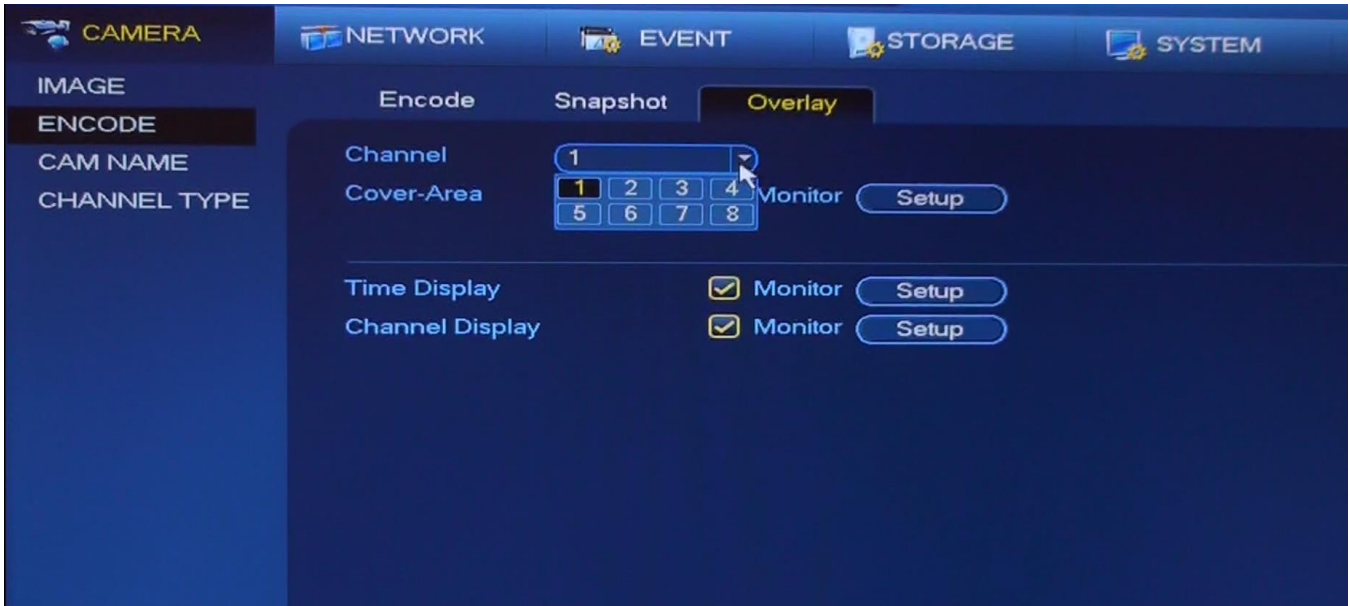

- 2) On the main menu, click on *Camera* under *Setting* at the bottom of the screen.

- 3) Make sure that *Encode* is selected on the left hand side of the screen and that *Overlay* is selected from the tabs at the top.

- 4) Click on the dropdown next to *Channel* and select the camera channel you want to create privacy-covers for.

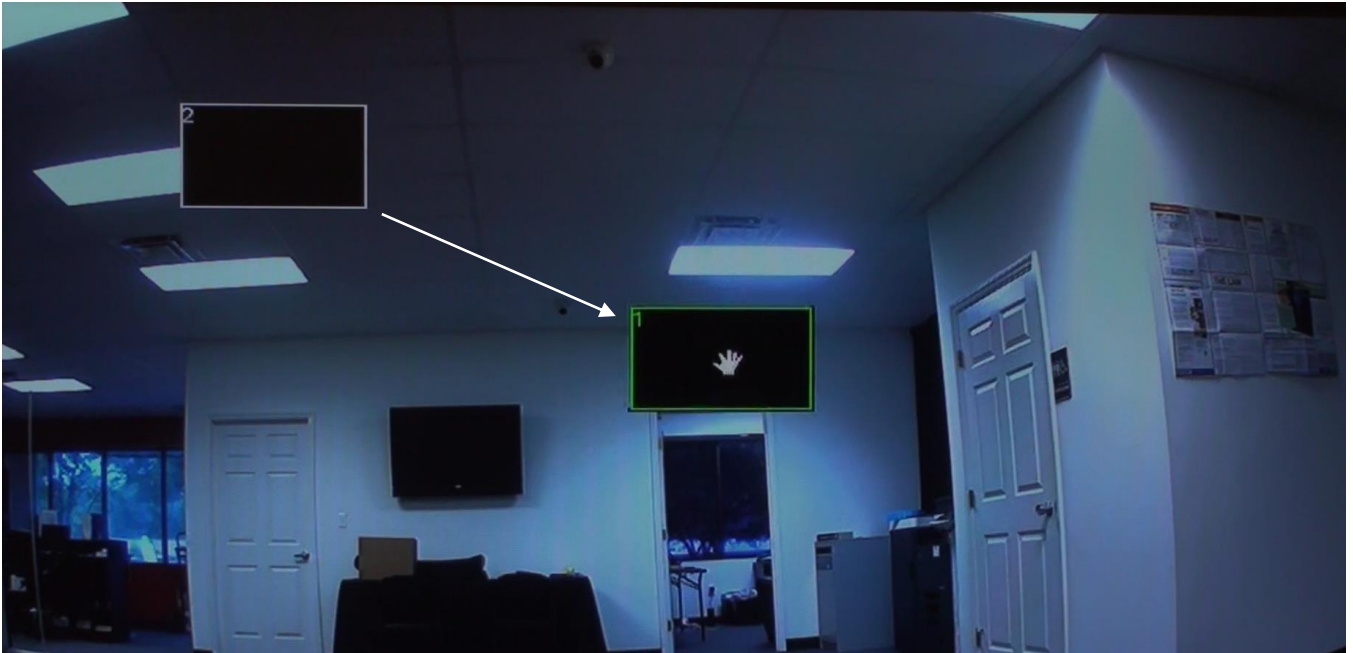

- 5) Select either *Preview* or *Monitor* next to *Cover-Area*. Both will work in the same way. Then select the number of cover-areas you want to create (if you want to create three, click on 1, 2 and 3).

- 6) Click on setup to open up the Cover-Area setup screen.

7) Click on the black cover that appears and drag it to the area you want to cover.

8) Place your cursor on the boarder of the box and drag to make the box larger or smaller.

9) Repeat this process with up to 4 cover-areas.
